Monitor the number of patient responses & their comments

Are You Working to Increase/Improve Your Online Presence?

Have you ever Google or Bing searched your specialty in your area? Do you know where your practice appears in an online search? Do your competitors have 4-5 star online reviews? If they do & you don't, you're losing business.

People use the internet to research just about everything. Patients use the internet to locate doctors & statistics show that patients are more likely to go to a practice with good online reviews. Are you doing everything you can to capture business with your online presence? DoctorConnect can help!

*Only patients who rate you 4-5 stars on the survey will receive an automated invitation to complete an online review.
